## News-Prints

If you see the folks at the News office with mist in their eyes this week-end, and the next and the next it belongs there. The staff is losing a man who has been Old Reliable since we took over the News more than two and one-half years ago. That man is A. J. Dameron, whose presence at the linotype machine when days were darkest gave us the courage to tackle any job connected with the publishing of our beloved little newspaper.

A. J. is going to work in Memphis. After what we know, must have been some very difficult deliberating on his part, he told us that he had been offered a most lucrative position, which he felt, and we do too, that he could not turn down. Somehow all the difficulties we have ever witnessed in the shop seem a little insignificant compared to the empty space he will leave in our lives and hearts.

At the News we don't seem to look upon the folks who help us get out this paper as employees. They are a very integral part of our very own dear family, and their departure to better jobs puts us very much in the position of parents, whose children have finished one phase of their lives and are ready for the next. We knew that someday A. J., whose ability in any shop is unequalled would be ready for bigger fields. The thing that concerns us is that we feel there is no field too large or too difficult for A. J., for we believe that barring the other capable men in our shop, he is one of the most dependable, the most agreeable, the most capable man we have seen in our nearly twenty years of newspapering.

We've got a linotype machine that is ageless. Historians differ as to the year of its make. Well, there were times when the infirmities of its years would show up, mostly when A. J. needed to get speed. With Eph Dawes at his side, and even before then, A. J. would almost coo at the monstrosity to make it work. Sometimes it did, and sometimes it didn't, but if it ever unruffled his nerves, we never knew it.

Many are the things that we could tell you about A. J. as a fellow worker and a good fellow, but he might not set it, if we did. So, instead, we'll just say that if ever a sincere farewell were given a man from the folks who admired him most, then we are saying all the luck in the world to you, with the wish that your hopes and your dreams will all come true. If the confidence we have in A. J. is rewarded we know that someday in the not too distant future we'll say: "We knew the Sergeant when . . ."

Hail, Hail, the gang's all here! Fourteen pages this week in two sections, crammed full of local news, correspondents, features and ever-popular Patricia Latane, the "sees-all-know-all-tells all" Walkie-Talkie, full news coverage from the Siegel factory and Fulton Hi, and the Roundhouse Roundup . . . and we hope you'll take time to sit down for a couple hours' reading and enjoy it all.

Look over the advertising, and you'll find lots of news, specials and announcements of interest.

## Santa Claus To Arrive Here Dec. 3; Big Plans Working

Plans for staging Fulton's third annual Christmas parade are going along smoothly, a committee chairman of the Young Men's Business Club announced today. Old Santa himself will arrive in the city amid pomp and ceremony on Saturday December 3. Heretofore St. Nick has been arriving in the early afternoon on the City of New Orleans from Louisville, but since that train has been temporarily discontinued, another mode of arrival will have to be planned, unless the train is reinstated.

Meanwhile the YMBC committee collecting funds for street decorations report that more than \$1000 has been collected and what with the one-third more promised by the City Council it seems certain that Christmas will find Fulton "well-lighted" for the hundreds of visitors and shoppers who will come here during the holiday season.

A parade of gaily-decorated automobiles, and other vehicles is planned for the inaugural event, with Santa Claus throwing candy to the throngs of children who are expected to line the route of march for the parade.

Detailed plans still are in the process of formation, but members of committees in charge of the event declared today that it will be one of the highlights of the year for the local community, and is expected to bring visitors from many surrounding communities for the occasion.

## FLIPPO HONORED AT DERBY DINNER

Last night (Thursday November 17) Postoffice mail clerks and city carriers at Fulton honored W.E. Flippo, who for 31 years has been one of Uncle Sam's faithful carriers of the mail out of the Fulton office.

Flippo, 67, who has served at Fulton under six postmasters was guest of honor at a banquet at which Robert Lamb, another old-timer in the local postoffice was master of ceremonies.

A devout and faithful member of the First Baptist Church he plans to devote most of his spare time to church work, an aversion he has enjoyed since his early youth.

The Flippos have two children, Mrs. J. A. Hemphill and Mrs. Robert Fry of Union City. They also have three grandchildren.

## \$25,000 In Checks Released By Fulton Bank on Thursday

More than \$25,000 was distributed here on Thursday to Xmas Club members by the Fulton Bank, Russell Pitchford, executive vice-president of that institution told the News today. The monies will be channeled for the most part into Fulton business houses, adding the usual mid-November boost to Holiday shopping. Mr. Pitchford said that the total amount may even run far in excess of the amount estimated today.

The new company also purchased the Interstate Loan Company at Murray on the same date. Mr. Stephenson succeeded Ross Armstrong who was local manager of the old company.

With branch offices in many sections of the State, the Friendly Finance Corp., has as its president Charles L. Humphries of Paducah, who is married to the former Dorothy Ann Pearson of this city.

Mr. Stephenson has had wide experience in the finance field and his residence here will be in acquisition to the business life of the city.

Valentine, Ben Golden, L. A. Clifton, P. L. Bennett, Claude A. Bell, Harry Grymes, H. L. Ferguson, Arthur Matheny, W. B. McConnell and Abe Jolley.

## FULTON COUNTY LEADS IN VOTES

Fulton led all Kentucky counties in ratio of votes cast for the two constitutional amendments voted on in the general election a week ago, Lawrence Holland, superintendent of city schools, told the West Fulton Parent-Teachers Association Tuesday afternoon.

Fulton counties voted for the amendment permitting increase in state salaries 706 to 261, and for an educational fund amendment designed to aid poorer districts in the state by 748 to 198.

One precinct, New Madrid Bend, a section of Kentucky cut off by the meanderings of the Mississippi river, cast all its votes for both amendments. New Madrid Bend voters, it was pointed out, usually vote as a unit on all questions.

Mrs. Ward Bushart, Fulton, was a member of the state speakers bureau of the state salary limit and health committee, and leaders here credit her work with a big share of the success of the amendments in the county.

## TOBACCO GROWERS WILL VOTE QUOTAS

On Saturday, November 26, all Burley tobacco producers will have an opportunity of deciding the question of continuing marketing quotas, Charles E. Wright, chairman, Fulton County PMA Committee, announced today.

Any person sharing in a Burley tobacco crop this year (1949 harvested crop) either as owner, operator, sharecropper, or tenant is eligible for a vote. No person, regardless of his interest in different farms by communities, counties, or states, is entitled to more than one vote.

Mr. Wright states further that due to a limited number of Burley producers in his county, there will be only one polling place in this county, and that will be in the county office. Mr. Wright urges that each and every voter go to the polls and vote November 26, 1949.

### JOHN HUDDLESTON

John Huddleston, one of Fulton County's most beloved citizens died suddenly at Jones Clinic Sunday after a long illness. Funeral services were conducted Monday afternoon at 2:30 p.m. with Rev. Perry L. Stone, pastor of the First Christian Church in charge of the services. Interment was in Fairview Cemetery with Whitel Funeral Home in charge.

A life-long resident of this community he retired more than four years ago because of ill health. He was born in Obion County, Tenn., on August 8, 1870, the son of Mr. and Mrs. Thomas Huddleston. His wife, the former Rose Gardiner, preceded him in death thirty years ago.

He is survived by his brother, Jake Huddleston, Fulton; one sister, Mrs. J. T. Higgins of Detroit and a cousin, Arch Huddleston, Sr., also of Fulton. A devout member of the First Christian Church he was also a member of the Elks Lodge and the Odd Fellows Society.

### CYRUS VANCIL

Services for Cyrus Vancil, for many years a painter of Fulton, were held Tuesday afternoon at two o'clock at the Whitel Funeral Home with Rev. E. Rueb, pastor of the Cumberland Presbyterian Church officiating.

Mr. Vancil, 77 died suddenly Sunday at his home with death attributed to a heart attack.

He is survived by his widow, Mrs. Nannie Ellis Vancil, three sons, Otto Vancil of Paducah, Finis Vancil of Fulton and Robert Vancil of Chicago. One daughter, Mrs. Mary Alice Miller of Milwaukee, also survives. He leaves 11 grandchildren, a half brother, Rev. Charles Fry of Friendship, Tenn., and a half sister, Mrs. Emma Baucom, of Fulton.

On Sunday, when the members of the Cumberland Presbyterian Church gather at the morning services to worship for the first time in the auditorium of the beautiful edifice just completed many of them will be thinking back, more than 60 years back, to the humble, but determined beginning of the church in those many years ago.

Many of today's congregation, children, grandchildren and great grandchildren of the early organizers will be there with a prayer in their hearts and on their lips in thanksgiving for the firm foundation their forefathers built, and for the courage and vision they left behind to instill in their successors the will to build the stately structure that stands on Second street as a monument to their memory.

The first Cumberland Presbyterian Church was organized in Fulton on June 20, 1887 with 18 charter members. Those charter members were: D. J. Bard, Mrs. Ada Bard, T. F. Beadles, Mrs. Byrd, Mrs. Luda Boyd, Mrs. A.A. Bostick, Mrs. Minnie Chapman, A. H. Fleming, Mrs. Amanda Fleming, J. W. Grymes, Mrs. M. N. Grymes, H. H. Hughes, John F. McNeely, G. R. Pegram, J.M. Robinson, Mrs. E. Robinson, Miss Sallie Robinson, and Mrs. James P. Tyler. None of the charter members are now living, but many have left a heritage to the church in the faithful relatives who are now diligently working for its perpetuation.

In the beginning the members had no permanent place of worship. Several of the churches in the city were generous in their offers to have the new congregation worship in their edifices. On occasions they did and at other times they worshipped in other public buildings. In 1889 the little group purchased what was then the old Methodist Church building on the south side of State Line, which is the site where now stands the Fulton Hatchery. The building was purchased for about \$1000.

The church was not used for long, for with a "roof over their head" they started thinking of a building fund, and in 1900 plans for a new church were made. A lot on Commercial avenue was donated by Mrs. Ada Bard Clemmons and in the Spring of 1901 a new church was built on the site. Costing nearly \$4500, all but \$1500 of the funds were available. At the time Rev. J. H. Thomas was pastor of the church, and at this time too, it is apropos to bring in the distaff side of the congregation, whose

work in the church, probably more than anything else is responsible for its growth and development. The old church was sold for \$1100.

According to Mrs. R. E. Stille, who holds the oldest membership in the church, the "women folks" were really fund raisers in the full import of the word. Playlets, box suppers, luncheons and a score of other projects were undertaken to raise money to pay off the debt. It was during the pastorate of Rev. W. H. MeLeskey, the first full time pastor, that the debt was paid in full. It was also during Rev. MeLeskey's pastorate that the church made many gains in membership and influence in the community as an up and coming group as well to buy a manse on Park avenue, which has since been sold.

In 1945 the building fund was started, and in early 1948 the actual building was begun. In early 1947 the church purchased the old Fields home at the corner of Second and Eddings and have worshipped there since selling the old church on Commercial avenue.

The first woman's group was organized in 1890 and at that time was one overall organization. Today women's work in the church is divided into two groups, the Ladies Aid Society and the Missionary Society.

Through the years the church has grown in membership and in fellowship. According to one of the members the congregation, is one of the most congenial in existence. It is a part of the Obion Presbytery.

It has not been without its pathos and its humor, however. The story has often been told of a pastor whose severity was one of his predominating characteristics. The members were a little prone to tire of his barbs and often dozed in church. The pastor on the other hand didn't think much of their dozing and on one occasion stopped his sermon to blast out at R. E. Stille, J. M. Fry and M. F. DeMyer to wake them from a delightful nap in church, of which there is nothing more peaceful.

Then there was the beloved pastor Rev. D. W. Fooks, who

## Henry I. Siegel Passes Away Nov. 16; Owned Four Plants

Henry I. Siegel, president of the vast garment enterprises that bear his name, passed away suddenly at Doctor's Hospital in New York Wednesday afternoon at six p. m., Leo Greengrass, manager of the local factory advised the News on Thursday. Mr. Siegel, who was actively engaged in the duties of heading the four garment factories at Dixon, Bruceton, Trezevant, Tenn., and Fulton, Ky., at the time of his death, was expected to visit the local plant last Tuesday, but because of other duties in New York was unable to be here.

Having just returned from a week's vacation in Bermuda, Mr. Siegel was in good health. On the day of his death he had talked to his wife from his office and was in good spirits. Later in the day, however he consulted his physician because of feeling ill, and died of a heart attack shortly thereafter. He had not previously complained of a heart ailment.

Coming to America from his native country as a young man, Mr. Siegel's life history has a real Horatio Alger background. Starting as a garment maker in a factory owned by Izzy Greengrass in Scranton, Pa., he branched out on his own as a garment manufacturer on a small scale. Working hard and becoming expert in his field, he had the vision to view the industrial possibilities of the South and opened up a factory in this vicinity. More than ten years ago he contacted local businessmen and opened up a factory here, which employs more than 500 people, and has become a mainstay of the financial background of the city and county.

He is survived by his widow, two sons, Jessie of Dixon, manager of the Siegel garment enterprises, George a student in an Eastern University, two brothers, Ernest of Dixon and Sam of Bruceton and one sister, Mrs. Aaron Tinnen, also of Dixon.

Funeral services at press time were incomplete, but it is believed that they will probably be held this week-end, pending arrival of relatives.

Mr. and Mrs. Greengrass left Thursday for New York to attend the services.

Mr. Siegel's death cast a pall of gloom over the hundreds of faithful employees at the garment factory here as well as among the many friends he has made on his visits here. The News staff joins in extending sincere sympathies to the family in their hour of bereavement.

### We Tried

Some time ago we reported in the News  
a story concerning the little town of London,  
Ky., which had been selected by the Ken-  
tucky Chamber of Commerce as a community  
with which to work out various development  
projects as a guinea pig for progress and  
growth. Today we received a news item tell-  
ing of the progress which has been made thus  
far.

It almost sounds like a fairy tale as we  
read that the first major objective of the  
community development program sponsored  
by the London-Laurel County Development  
Association was achieved in the November 8  
election with the passage of Laurel County's  
airport bond issue.

Barney Tucker, president of the newly-  
formed association, advised Kentucky Cham-  
ber of Commerce officials that his organiza-  
tion had successfully spearheaded the pro-  
motion campaign that resulted in a more than  
six-to-one vote of approval for the \$35,000  
bond issue to insure construction of the pro-  
posed War Memorial Airport honoring Laurel  
County casualties of both world wars. Lon-  
don is the first city selected by the state  
chamber to activate its community develop-  
ment program.

The local association has previously help-  
ed to raise another \$35,000 by popular sub-  
scription to supplement \$170,000 of federal  
and state funds.

A contract already signed with Piedmont  
Airlines assures eight flights daily, Tucker  
stated, and other air lines are investigating  
possibilities for freight and passenger service.  
Negotiations have already been completed  
with the Federal Government for a mail con-  
tract.

Just between us folks, and since the pub-  
lisher of this paper is a member of the pub-  
lic relations committee of the Kentucky  
Chamber of Commerce, we tried to get Ful-  
ton selected as the community with which the  
state organization could work to promulgate  
some of its development procedures.

Better luck next time!

### Sound Like Fun!

Dr. James Bender, a New York psycholog-  
ist, told the school-teachers of America yester-  
day to go climb a tree.

It's relaxing, he said.

Teachers—especially the female variety  
—need relaxation more than most people, Dr.  
Bender added. They use up so much physical  
energy and work under such a strain that  
they often develop insomnia.

To combat battle fatigue in the class-  
room, Dr. Bender prepared a list of hints for  
presentation at the 95th annual convention  
banquet of the New Jersey Educational As-  
sociation. He advised insomniac teachers to:

1. Take daily exercise in the fresh air. He recommended tree climbing as "one of the most relaxing of all muscular activities."
2. Cut homework, "Teachers," said Dr. Bender, putting a new twist on an old scholastic war cry "should not be overloaded with homework."
3. Make sure you work for emotionally well-adjusted principals and department heads.
4. Campaign for smaller classes.
5. Have classrooms decorated in pastel shades.
6. Request installation of sound absorbing materials in schoolrooms.
7. Develop hobbies and engage in social activities.
8. Take a course in how to sleep. This should be given at all teachers' colleges.
9. Yawn many times throughout the day. "This also relaxes you," Dr. Bender said, "particularly your talking machine." He did not say what effect it would have on the students.

### At The Grass Roots... Industry Grows

"More than \$4,000,000,000 of payroll an-  
nually has been added to the income of rural  
counties by the development of small town  
industries" since the last Census, it is esti-

mated by Richard Seelye Jones in an article  
entitled "The Small Town Hits the Jack  
Pot" published in a recent issue of Nation's  
Business.

Referring to the importance of this trend,  
Mr. Jones says that hundreds of towns, from  
coast to coast, 'are no longer just waiting for  
Saturday until the farmers come to town and  
stir up a little dust along the main stem.

"Gopher Prairie," says the article, "is on  
the boom and Main-street is having its face  
lifted. There are new stores and there is new  
paint, new movies and new electric lights,  
new paving and new sidewalks, and new  
homes going up in Hometown. The American  
small town has hit the jackpot of industry,  
and the small town loves it. Its awakening is  
one of the economic phenomena of postwar  
America."

Speaking of the boom in small town in-  
dustry, Mr. Jones says. "It means an im-  
proved balance between the farm and fac-  
tory in many areas, a sounder economic and  
social fabric bulwarked by year-round pay-  
rolls, and the advance in cultural and living  
standards that follow increased buying  
power.

"Some companies, locating branch fac-  
tories in new areas," he explains, "have done  
so because of the availability of raw material,  
markets, transportation or on the basis of tax-  
es, power, and land and building costs. But  
in the case of many small towns the out-  
standing evidence is that human reasons are  
the most important. These are reasons apply-  
ing both to management and labor. It is pro-  
ving more efficient to produce in factories of  
modest size, located in communities of mod-  
est size."

### Tidbits of Kentucky Folklore

In a recent issue of the JOURNAL OF  
AMERICAN FOLKLORE there was a review  
of a new book that purports to be genuine  
folklore of Wisconsin. The author of the  
review takes the folklorist to task for yielding  
to the temptation of giving readers what they  
want, whether it is true or not. A significant  
sentence is this: "The great temptation to the  
folklorist today is to give the publishers and  
the public what they think they want, and  
the deliberately contrived product is not folk-  
lore but what I have elsewhere called fake-  
lore."

In picturing the folk in literature, in  
learned writings, and in art there has too  
often been a tendency to overdo some features  
of the folk and ignore others, thus making a  
false art. It has become a high-brow fad to  
reveal in what is thought to be folklore. Pa-  
rading folk dances, folk arts, folk tales, and  
such has become so common that one half  
suspects that much of the product of folk-  
lorists is not genuine original investigation  
but imagined stuff that never did exist and,  
I hope, never will. Unfortunately, one folk-  
lorist of considerable importance decided to  
make some money for himself by placing  
folklore in an attractive book published, it  
is true; it is equally true that it has gone  
through many printings; but the lamentable  
thing about it is that it cost the author the  
respect of genuine folklorists, not because  
it brought in some money but because tradi-  
tional lore and fads promulgated by Tin Pan  
Alley and similar modern monsters.

Many times in this column I have taken  
to task the people who write about our moun-  
tainers for New York jaded appetites. When  
an outsider comes into our Kentucky hills  
and gives his impressions, I am not particu-  
larly offended; we probably think some  
things about him that would read as well as  
what he says about mountaineers. But when  
one of our own "natives goes out of his way  
to pander to the taste of outsiders, I feel a  
desire to revive feudin' days and get out my  
old rusty firearms. The tragedy is that many  
of the worst impressions of our hill people  
have been made by people who knew bet-  
ter, who were themselves of mountain birth  
or had lived for a major portion of their lives  
in the mountains. Just because outsiders like  
the more unusual things to be found in moun-  
tains, and elsewhere, for that matter, these  
genuine hill people have passed out samples  
of what the public wanted. This may be in-  
teresting stuff, but it is unfair and is not folk-  
lore.

All my mature life I have been an ama-  
teur ornithologist. In the years I have run  
into many people who have felt that they  
had to find unbelievable things about birds  
to show their great knowledge. Sensational-  
ism on the part of many well-meaning people  
has often crippled the science of ornithol-  
ogy, because accurate scientists have sneered  
at the monstrous stories and dismissed the  
study of birds as a hobby of elderly spinsters  
and near-sighted Casper Milquetoasts.

#### Turning Back The Clock

November 22, 1929:

In 1928-29, 253 boys and girls  
in the County were enrolled in  
4-H Club work. This work was  
started late in 1928 and has got-  
ten off to a big start.

A new auto firm in Fulton has  
been started, taking over the  
Snow-White Ford agency, can-  
celed six weeks ago. The new  
firm will be known as the Ful-  
ton Automobile Company, and is  
being operated by Chas. E. Hol-  
loway and Walter J. Willingham.

Mgr. Joe Davis of the Fulton  
Gin Company announces that he  
will gin over 700 bales of cotton  
this year. Lint is bringing 16c or  
more per pound, seed, \$30 ton,  
and some growers report more  
than a bale per acre.

Two runaway boys and girls  
were apprehended by Fulton po-  
lice this week in a stolen car and  
returned to Memphis, where they  
were wanted for thefts. The four,  
all students, in Missouri, had de-  
cided to go to Florida for a lark.

### Ewing Galloway:

#### Kentucky On The March

In the last four decades your  
correspondent has seen many  
mayors make headlines, but most  
of them are forgotten. One of the  
first I recall was Carter H. Har-  
rison of Chicago, but I'm not cer-  
tain whether he was distinguish-  
ed for constructive achievements,  
for his striking appearance, or  
his forensic talent. There was  
Tom L. Johnson, who kept in the  
headlines for many years with  
his 2-cent fare issue. He contend-  
ed that the traction company in  
Cleveland could make money  
hauling people for two pennies  
apiece. Brand Whitlock, the novel-  
list, fought for clean politics in  
Toledo. He was also a notable  
humanitarian.

But get-it-done mayors have  
been few. That's why the Read-  
ers' Digest for November gives  
us the story of Mayor Charles  
Farnsley of Louisville. Mayor  
Farnsley's beef sessions, with de-  
partment heads present, have at-  
tracted much attention, but he  
has got many big jobs done. And  
without too much ostentation.

#### Oberlin's Observations

Several interesting questions  
were raised during the voting  
last week in Jefferson County.  
The first question was: "What is  
an honest fraud?" The second is:  
"Where does enthusiasm for your  
party end and election stealing  
begin?" These are questions  
which certainly are common in  
every precinct in the state. They  
undoubtedly have caused some  
differences of opinion between  
election workers at the polls in  
nearly every community in the  
Commonwealth. Without at-  
tempting to supply any answers,  
it seems to me they require ex-

amination.

County Attorney Sam Stein-  
feld was posed this one by a polls  
worker in a telephone call: "We  
have outside, in a wheel chair,  
a cripple who is unable to get his  
chair, even with help, up to the  
voting booth, he can't get in the  
voting booth alone and cast his  
vote without help. Is it all right  
if a representative of each party  
goes in with him and helps him  
cast his ballot?"

Sam's reply was straightfor-  
ward and strictly to the point.  
He said he didn't know of any  
law covering that. He didn't

know why it couldn't be done.  
But he didn't know that it could.  
He didn't tell the election work-  
ers to go ahead. He couldn't, in  
his official position as attorney  
for the county election commis-  
sion. Because, to do that, he  
would have needed legal authori-  
ty for the election. But he didn't  
have to tell them not to, either.

In another case, voters who  
went to their polling place in  
one of the less savory precincts  
in Louisville were told they  
could vote either the straight Re-  
publican or the straight Demo-  
cratic ticket. "But you can't  
split," they were warned. Jef-  
ferson County has voting ma-  
chines, of course, and it's more  
than likely that the officials in  
this precinct actually aren't a-  
ware that splitting on a machine  
is even easier than it is with the  
old-fashioned stamp.

In still another instance, a man  
was actually inside the voting  
booth casting his ballot when an  
election official stuck his head  
inside the curtain and tried to  
tell him how to vote. There were  
examples of workers—over en-  
thusiastic, perhaps, or maybe  
just crooked—trying to misin-  
form voters.

We had a strange one in our  
own precinct. Susie and I went to  
vote and, dissatisfied with both  
men running for one office, we  
decided to write in a name. The  
name of an incumbent who had  
been passed over by his party for  
election because he was a good,  
honest, conscientious public of-  
ficial. We asked our precinct  
election officials how to write-  
in. And they all confessed they  
didn't know. This additional  
safeguard to an honest ballot  
which the machines give is a  
thing our good, intelligent peo-  
ple hadn't even heard of!

That did not prevent us from  
writing the name in. I had an  
idea of how it should be done  
from writing several news sto-  
ries about how to vote on ma-  
chines. So, although Susie was  
inside the booth, I shouted in-  
structions to her. This probably  
was an election fraud in itself.

Yet her ballot would not have  
been cast as she wanted it, and  
her vote, therefore, would have  
been unsatisfactory to her; it  
would not really have reflected  
her wishes if I hadn't been able  
to guess the right way to write-  
in. Neither would mine. Inciden-  
tally, the judge asked me to re-  
port if the write-in vote she  
made was visible after she pulled  
the lever. It wasn't. There's a big  
roll of paper in the back of the  
machine for write-ins. Too bad

they aren't counted.  
The vote of that cripple could-  
not have been cast, either, re-  
member, if a sort of "honest  
Fraud" hadn't been committed by  
poll workers. The fact that they  
are done with the best intentions  
doesn't make even "honest"  
frauds defensible. We should  
toughen up our election law en-  
forcement in Kentucky.

## Farmers On Spending Spree; Will Outspend City Brothers

Farmers are outspending their city cousins despite a light downturn from the record-breaking farm income level of 1948, with the expectation that farm spending this year will surpass the excellent 1947 record, according to data revealed by Rural Marketing, a monthly report of farm

news and trends published by Country Gentleman.

The facts and figures cited in support of this conclusion were gleaned from Business Week, Nation's Business, The New York Times, the Wall Street Journal and department of commerce records.

"Farmers are expected to draw extensively on their savings of more than 20 billion dollars, if necessary, in order to acquire the production and household equipment they so much desire," the report said.

Nation's Business is quoted as reporting, "Sales are slumping more in large cities than in the smaller centers."

Also quoted in this statement from Business Week:

"Most merchandisers agree farmers are spending more freely than their city brothers who have been socking a steadily larger proportion of income into savings during the past year or more."

This is especially true in appliances and farm equipment, according to a survey made by Business Week, which reports that the outlook for appliances is "brighter in rural areas than elsewhere," and that sales of hay balers, corn combines, cotton pickers and other major items now easier to buy, were playing a major role in boosting farm equipment sales and that farmers "are not tightening their purse strings any more than they have to."

The Business Week statements are supported by a news item quoted from the New York Times to the effect that one of the largest appliance distribution organizations in the country has found that rural sales are mainly responsible for increased orders from dealers.

The Wall Street Journal is quoted as predicting that "farm equipment sales stand a good chance of hitting a new high this year."

Dear I. R.

Do you give him a cause to want to run to another woman, when a married man goes with another woman there is something lacking at home so take inventory and see if he should be running to someone else.

Dear Patricia:

I am a married woman as I wrote you before I have done everything that I shouldn't. I have taken your advice, my husband and I are getting along fine better than we were the day we married now I have one more question. I would like for you to answer. do you think if I go join the church and start going every day that God would forgive me of my sins? M.B.

Yes, when you join the church you are then washed of your sins that if you live a good Christian life after you join the church and I certainly hope you do, because I know that you don't want to do things you shouldn't so go ahead and join the church and things will be okay.

### Presbyterians

(Continued from page one)

never thought a funeral was a success unless the whole congregation was in tears. With his tendencies funerals were tearful, as well as on many other occasions when he could move the congregation to tears with a normal sermon.

Today there are approximately 150 resident members, but according to Mrs. Stille, 43 members, including "children, old folks and dogs," built the church on Commercial avenue.

Through the years the work of its members, many now deceased is recalled. R. H. Wade, R. E.

Stille, M. F. DeMyer, J. M. Fry, and others have left their imprints of generosity and devotion in the work of the church.

The church was the first in the city to ever have a woman minister conduct a service here. This was back in 1902 when Mrs. L. M. Woolsey conducted a "protracted meeting" and brought together many of the denominations in true Christian feeling.

Yes, on Sunday, when the new Hammond organ lifts its tones in joyous song, it will also be singing the praises to the faithful workers past and present, of this faithful congregation whose members have been a guiding influence in the city and county for more than half a century.

### CUSTOMERS' CORNER

Why will food prices go up if the anti-trust lawyers win their suit to put A&P out of business?

Here is just one of a number of reasons: We manufacture many of the quality foods we sell in our stores, such as Bokar, Red Circle and Eight o'clock coffees, Ann Page foods, White House milk, and many others.

Because this saves us money, we are able to pass along these savings to our customers in the form of lower prices. The anti-trust lawyers have asked the court to order us to get rid of our manufacturing facilities, which would put an end to all these savings.

Make no mistake about it. If the anti-trust lawyers succeed in putting A&P out of business, you will find your food bill is higher.

## New Wage & Hour Law Will Put More Dollars In Fulton

What effect the new wage and hour law, signed by President Truman in late October, will have on Fulton business houses, is yet undetermined a survey made by the News revealed yesterday.

The law, which lifts the minimum wage to 75 cents an hour from the present minimum of 40 cents, will affect such firms doing business in inter-state commerce. Among these are: Swift and Company, Fulton Pure Milk, Browder Milling Company, Henry I. Siegel Company, Fulton Ice Company and others who sell manufactured goods in other States.

According to a well-informed source (the manual of rules has not issued) employees of the Illinois Central Railroad and other railroads are not specifically covered by the new law since railroads are governed by wage and hour regulations under the Railway Retirement Act.

A spokesman for the Henry I. Siegel Company, which is at present employing nearly 500 people, said that a majority of their employees would be affected. With a beginner's wage of 50 cents, ten cents above the old minimum, the factory has not received its instructions from the home office as to the exact amount the new law will increase its payrolls.

The Fulton Ice Company, which employs more than 50 persons during its peak season will be materially affected, since only a few of employees are in a bracket to justify the minimum wage under the new law.

Browder Milling Company told the News that their company falls into the new wage law, but that even prior to the passage of

the law, arrangements were being made to bring all of their employees above the new wage minimum. Only a small number were being paid below the new minimum.

Taking into consideration the many firms doing inter-State commerce here, a sizeable amount of additional payroll revenue should reach the registers of local business houses.

**Mrs McLeod Says...**  
From The Home Demonstration Agent From Fulton Co

Fulton County Homemakers have learned to make stitched fabric lamp shades under the instructions of University of Kentucky specialist. The second in a series of six home furnishing training meetings was held in the

Hickman Homemakers Club Room on Wednesday, November 2, with twenty-three leaders present. The training school was conducted by Miss Venice Lovelady, Home Furnishing Specialist.

Worn and soiled covers had been removed from old lamp shades and the frames rapped and ready for the new coverings.

Miss Lovelady demonstrated the making of patterns and the different steps in cutting and putting on both lining and covering.

When the day was over the leaders had their shades in various stages of completion, ready to be shown at the November club meetings.

Brownsville leaders, Mrs. Guy Barnett and Mrs. Alfred Graves reported one work meeting for converting coal-oil to electric lamps in addition to their regular meeting.

Mrs. O. L. Sutton leader of

Western club by her absence without a substitute broke Fulton County's record for perfect attendance.

In addition to the above the following leaders and substitutes were present.

Bennett, Mrs. Smith Brown and Mrs. Harry Hancock; Browns ville, Mrs. Alfred Graves and Mrs. Guy Barnett; Cayte, Mrs. Billie McGehee and Mrs. W. B. Sowell; Crutchfield, Mrs. John McClanahan and Mrs. Clyde Corum; Fulton, Mrs. L. C. Brown

and Mrs. Oliver Kash; Hickman, Mrs. Claude Middleton and Mrs. T. H. Streeter; Montgomery, Mrs. J. M. McCollum and Mrs. Park Wheeler; Palestine, Mrs. John Verhine and Mrs. Frank Stroud; Rush Creek, Mrs. Billy Henry and Mrs. Harvey Bondurant; Sylavln Shade, Mrs. Leonard Shuff and Mrs. Robert Brasfield; Vic-

tory, Mrs. Raymond Harrison and Mrs. Harold Williamson; Western, Mrs. J. C. Lawson substituting for Mrs. L. B. Abernathy.

What's **YOUR** price tag on happiness?

JUST what do you see in this handsome, tidy-sized Buick SPECIAL pictured here?

The smartest bit of automobile styling on the road today? The standout beauty of tapering fenders—the sturdy protection of a wholly new front-end design?

The prestige that's in the Buick name—the solid, road-wise steadiness Buick has always stood for?

Your chance to get in on the perfect smoothness of Dynaflo Drive\*—this being the lowest-priced car on which that sensational new transmission is available?

\*Optional at extra cost.

When better automobiles are built  
**BUICK will build them**

They're all there, every one of those things. And for a good reason that may go a bit beyond the usual idea in designing an automobile.

For, a long while ago, we graduated from the idea that a motorcar is merely a means of getting about.

The way you travel is pretty important too. The lift that's yours in knowing there's no prettier picture anywhere on the highways. The "kick" there is in a power plant that's lively and eager and always ready to get in on the fun.

The comfort that's found in all-coil

springs, a husky, steady-traveling understructure, cushions that are deep and soft and wide enough to let you spread yourself a bit.

Even that extra swelling of the chest that comes from owning a car you know everyone respects and admires.

In a word—your happiness. It's never out of our mind in planning this car—nor in making very sure each dollar of cost gives you the greatest possible benefit.

That's why we rather proudly ask you to go see—and try—this Buick SPECIAL. It's priced like a six, in spite of the fact that like all Buicks, it's a big-powered Fireball valve-in-head straight-eight.

And we honestly believe that it puts a lower price tag on your motoring happiness than any other car you can buy today! See your Buick dealer and find out about that.

### SENIOR NEWS

Who was the Senior girl T. S. was with Monday night? Could A. F. be the girl?

It seems J. F. has been dating C. R. B. quite a bit lately. Could anything be serious about this?

I believe A. L. and S. M. are getting along better these days.

I wish they would hurry up and patch things up.

Well, I believe D. C. has decided he doesn't want to be a bachelor all his life. When I saw him with H. W. last Friday night there was a gleam in his eye.

Could anybody tell me who the strange boy R. F. H. was with last Sunday night? What about that, T. G.?

For the past week I have heard people calling "Seymour." J. F.

would you please tell me where you got the name.

I'd like to tell Jack Thorpe that he made such a cute little girl in the Junior Follies Tuesday night.

N. S. has mailed a letter almost every day to Martin since school started. What could be so interesting in Martin N. S.? Could it be W. M.?

There is a certain Senior girl that has picked up a new nickname just recently. She got this name by wearing her "red skirt." What about this, S. S. Easley?

A. M. was really mad at D. C. Wednesday morning in Home Ec D. C. what happened in Algebra that made her mad?

## JUNIOR NEWS

Our "Fashion Follies" went over with a big bang Tuesday night. Songs, dance and the latest fashions modeled by the male beauties of Fulton.

Miss Wiseman came in first dressed in a flowery swim suit with her brown curls peeping out from under her swim cap. That most sophisticated Mrs. Gregory came with a darling black evening dress and carrying a lacy pink handkerchief. We thank all of them for their participation.

All the main projects are over now. Guess we can rest a little and save our money for the carnival, which, in case you have forgotten, is this Friday night. We want everyone to come as we guarantee you will enjoy it and also we want to give the Seniors a prom they will remember. In my opinion they deserve it.

Didn't know some of the Junior girls had such muscles until they started pushing a certain 1949 Ford. Don't think they did, either.

B. S. C. has gone across the border down south. He has been going with N. S. C. from South Fulton.

B. B. is still going in circles. Last week she went back to T. S. Anyway she keeps it within the Senior class.

B. B. after a few episodes with a dark haired girl in Carr Institute has settled down to N. W. Reckon they will be going steady as B. B. popped the question and as expected she said, "Yes."

Say J. V., how come you and your friend J. F. were wrapped up in your coats on such a warm day?

Guess what girls? W. N. had a date last Tuesday night with M. D. W. Drop dead!

## THE RACE FOR THE ROYALTIES

By Patsy Green

We started the race one morning. It was all up to us; Our motto was "Good Sportsmanship." To help one another we must.

We had four big programs. In which everyone took part; We would like to thank you all. From the bottoms of our heart.

The Freshman had a chili supper. It was a big success; The towns people came, And the Freshman did the rest.

The Sophomores had a box supper. With plenty of things to eat; They had good entertainment, It really was a treat.

The Juniors had a fashion show. It made us smile with glee; At the men who dressed like women, For the public there to see.

The Seniors had the "Kill Kare Klub." It was a big affair; People came from miles away, To Kill their every Kare.

To whoever wins this race, We all will give a cheer; We know that you have done your best, For the Royalties this year.

## HITHER AND THITHER

The Seniors Kill Kare Klub was a big success Monday night. There was fun and frolic for young and old alike. The big variety floor show started at eight. There were sandwiches and beverages served throughout the performance. At the intermission the fortune teller added zest to the Klub by giving a reading of the stars to all who wanted them. A second performance was started about nine. We hope everyone enjoyed our little Klub and we want you to come again when we have something else.

The student body wants to thank whom ever is responsible for the half a holiday Friday and the faculty would also like to thank the student body as a whole for being nice enough on Halloween to deserve their kind deed.

Cissy, we hope you will soon be back in school and feeling pert and bright again. We all miss you.

Our home games ended last Friday night when we played Providence and won 19-6. I think we should all give the boys a cheer for the splendid winning season we have had. We lost three games and won six a very nice record to have. For those who won't be with us when the 1950 season opens the football boys, cheerleaders and band members who got out there and gave their best, we thank you, Seniors, and more power to the ones who are coming along.

Coach Hogg is proud of the football team as everyone else, so to show his appreciation he is giving the boys a weiner roast at Palestine Church Monday night.

## ANN AND JERRY'S IT

By Betty Lu Bushart

Yes sir, that's our girl, the popular Miss Ann McDade, candidate of the Senior class of 1950, was chosen to reign over the Junior Carnival with Jerry Neal Forrest as her King, for you see, this is the third for the candidates of this class to win for King and Queen.

In 1946, this class came into high school as green Freshman almost too green to work for our King and Queen, who were Joyce Fields and Hubert Stone, (Little Stoney) but we worked very hard and came in second.

No, we weren't discouraged, we knew there would be other times. 1947 rolled around and we were back up here, not quite so green but silly Sophomores. It wasn't long before Carnival was here again and we nominated Nell Speight and Jimmy Ruddle as our candidates for King and Queen. We worked our heads off that year and by the time the contest had closed we found that we had come in first and jubilant we were.

In 1948 we were jolly Juniors and jolly we were for we were in charge of the carnival and no one thought we had a chance but we fooled them again we came in first for the second time with Ann Latta and Ted Goodwin as the King and Queen for our own carnival.

So here we are again in 1949

as dignified Seniors, and very happy to have come in for our third consecutive year and our last.

Yes, sir she's our girl and we don't mean maybe. We are proud with and for you, Ann and Jerry.

## Want to Make a Million Bucks? Opportunity Yours, Right Now

You don't have to have brains to become a millionaire, the St. Louis Junior Chamber of Commerce reported Sunday.

Instead, the formula for financial success goes like this:

1—Make people like you.  
2—Chart a course and stick to it.

3—Work hard.

That's what the Junior Chamber found out in polling 97 local business men—all self-made men, none over 42, all making \$10,000 to \$50,000 a year and not one who married the boss' daughter.

Impatience was listed by 35 as a common fault young men must overcome. Next in order were laziness, lack of preparation, a

ticket taker.

Mr. and Mrs. Bob Williams had supper with Mr. and Mrs. Butch McClain one-night last week.

Margaret Alexander spent Tuesday night with Marie Moore.

Jeney England went to the quarterly meeting at Wesley with dinner on the ground and had a grand time but she was a little sick, I think, from eating so much.

Mrs. James Inman and children spent the day Saturday with her parents, Mr. and Mrs. Roy Boaz.

Mrs. Jim Inman's brother, Jack Carter of Paducah, is unimpaired at this writing.

Something new has been added to the waistband section. Inspector Gills, watch those crooked loops!

Mr. and Mrs. Raymond Madding, Martha Culpepper and Marion Wilkerson attended the skating rink at Sharon Monday night.

### TEEN-AGE TATLER

by the  
"Walkie-Talkie"

N. S. is wondering why Fulton is not going to play Martin in any of their games of basketball games. Wonder why?

C. P. is in love again. Wonder how long it will last this time?

J. E. is a fast worker. She gets her dates almost a week ahead of time. What about that?

B. G. has got a picture of "who" in a large poster. Could it be a certain son in the Navy?

N. W. has her eyes set on B. B. Can't A. M. and D. C. get along these days?

J. F. doesn't want to be seen with who she dates. Wonder why?

P. H. loves her job. Wonder why could it be, that she is so near the man of her dreams?

B. M. is very fond of B. B. Is there a spark of love in that?

Did B. B. make C. B. sick one night not so very long ago?

D. P. and B. T. have made up. Is it for good this time?

A. C. what is at McConnell. Could you tell us?

B. H. is steady dating the thing you should know?

S. M. is still dating G. R. steady. Is that right?

Who is going to get B. B. Which of the Senior boys?

Who was S. B. with the other night?

Isn't P. G. robbing the cradle just a little bit?

B. C. did you enjoy yourself when you were out with your girl friend the other night about two weeks ago?

What is in Sheridan, ask B. W. and she can tell you, no doubt?

G. Y. what happened between you and Charles did he not suit you after a year or so of court-

ship? You better make up or will he be mad?

R. H. and T. G. seem to be doing alright this year. Good luck you two.

C. M. where is that girl friend you were going to get? I have not seen her yet or are you going to be an old bachelor?

J. T. and A. L. seem to be doing all right but wonder where S. M. could have gone. He used to be in the picture.

What about that letter you wrote J. F., is there anything to it?

Is P. G. as mean as the talk goes, hope not?

Where are those boy friends S. E. and H. W. are supposed to have? You all had better get busy or you are going to be old maids?

J. W. who was the little Freshman chasing you the other day?

J. S. is going around with stars

in his eyes. Who is the lucky one this time?

Let's go to Birmingham L. W., how about it?

Who is in Wingo that B. Y. is crazy about?

S. M. has stars in her eyes, wonder why? Who has she seen lately?

S. B. and B. O. sure do like Martin, don't they?

Does A. P. like Clinton? Who is N. S. courting these days? Could you tell us?

Walkie-Talkie has many more interesting questions to ask school folks next week. Follow the column each week on the School Page.

# 1950 FORD

## IT'S HERE FRIDAY AND 50 WAYS NEW!

WITH THE  
**EXCLUSIVE**  
**NEW 100 H.P. FORD**

ITS QUIET WHISPERS QUALITY

It's the quiet of new super-fitted pistons, new "hushed" timing gear, new fan designed for better cooling at slower, quieter speeds. And what power! It's a full 100-h.p. V-8 that delivers more power than any other car anywhere near Ford's low price and sells for less than most conventional "sixes." And Ford offers a Six, too—an advanced Six with 95 horsepower.

**NEW sound conditioning**  
New "sound conditioning" in floor, doors and body panels insulates Ford's "Life-guard" body against road noises. More extensive sealing in all areas gives additional interior quietness and protection.

There's a **Ford** in your future  
...with a future built in

**NEW "hushed" ride**

Ford's famous "Mid Ship" ride is now so quiet you can talk in whispers at highway speeds. So smooth with its great team of "Hydra-Coil" and "Para-Flex" Springs that it virtually erases every bump.

**NEW quality features**

New quality is easy to find in this 50-way-new Ford. You find it in the new push-button door handles, in the new rotary door latch that needs only a feather-touch to open and close securely. You find it in new sparkling upholstery colors.

**NEW driving comfort**

Not only does the 1950 Ford offer you more hip and shoulder room than any other car in its field—it offers you the long-lived driving comfort of a new foam rubber front seat cushion over new non-sag seat springs. You drive relaxed.

But see it for yourself.  
Drive it so you can feel and hear the difference.  
And price it and see how much less it costs than any other really good car.

Mississippi Plantation Life:  
The Writings Of  
Mattie Dear

Oh, give thanks unto the Lord for he is good. I must say this what happen to me one day last week. I received a letter from Mrs. Bernhard of Farmington, Mich. In my week before last article I was telling about my tooth hurting me so she received it some how another and she taken my case to the Lord. Don't you know one thing, its the truth if ever I told it, my tooth ain't hurt me sence. Don't you know that Jesus is a healer. I hardly ever have a doctor. If it wasn't for my insurance I belong to I never would have no doctor, but it is right to draw out some where you have put in. Jesus is my doctor and he is my all in all.

He able husband and I to pick out seven bales of cotton and now picking on our eighth bale. If you trust God for one thing, trust him for all. Jesus is a silent listener at ever conversation and a unseen guest at ever meal for that cause you should mind how you talk and what you say.

God bless Mrs. Bernhard. She sent me lots of good papers to read also 25c in money, some paper also a stamp envelope. That was so sweet of her.

Had good service Sunday at Damascus pastored by the Rev. W. H. Lang. He sure is a good preacher. Text found first chapter of James, subject, "Pure Religion." Thats whats needed today. Sin is growing bold. Don't forget people at one time this world was destroyed by water but my Lord say next time by fire on the account of sin. He is not no shorter than his word so I'll say God bless the Westpheling family. Miss Johanna is a sweet woman but her husband know more about that than I. So I will say keep the faith and stay in God's hand.

She never seems to fret or worry When things go not her way; She looks beyond life's dark horizon, And there behold a brighter day.

With a radiant face of love so tender, She endures the rain and cold; Our of all things God made on earth, He never made a dearer soul.
